

**Korea to exhibit at CONFEX 2013,
So come and meet us!**

Korea Tourism Organisation will be exhibiting on stand N412 at International CONFEX from the 19th March and we would like to set up a meeting with you to see how our dedicated Convention Bureau can help organize your next event.

Our company will be working alongside a handful of leading Korean ground operators specialising in the MICE sector and providing a full DMC service with a strong focus on on-site support and organization. Our combined expertise will give a real insight into the potential of the MICE sector in Korea. We will also be distributing new MICE related brochures, information on exciting events and festivals taking place in the country, which includes the ‘Suncheon Bay Garden Expo 2013’ and another F1 Race in Yeongam to name but a few. As an incentive destination, Korea is one of Asia’s most dynamic destinations offering a dedicated programme of options that make the most of a spectacular landscape and 5000 years of tradition & culture.

A Far Eastern powerhouse, Korea is geographically and culturally diverse making it an ideal destination for international conference delegates. Seoul, the capital is an international hub city with flights from all continents can offer first class accommodation, various state of the art meeting venues, outstanding off site dining/gala dinner options and home to many of the country’s prominent UNESCO world heritages and signature sites, some of which can be used for MICE purposes.

The award-winning International Incheon Airport, state-of-the-art convention centres throughout the peninsula, advanced transport links connecting regional areas and a record of hosting the biggest events on the globe, such as the G20 Summit Meeting, FIFA World Cup and World Athletics Championships are factors contributing to Korea’s status as a world leading MICE destination.

We are waiting to talk with you, so please contact our dedicated team and reserve your meeting time at CONFEX 2013.
